TEACHER OF MATHEMATICS - MPS

Required for September 2012

'Much of the academy's work is good and some is outstanding' – OFSTED December 2010

The City of London Academy - Islington (COLAI) is an 11-19 Academy sponsored by the City of London Corporation and City University. The specialism is Business and Enterprise with a particular focus on leadership, critical thinking and creativity (reflecting the expertise that the sponsors bring to the Academy). Our provision reflects the values and philosophy of the Academy by developing personal responsibility and resilience, interpersonal skills, understanding of ethical issues and other competencies through challenging entrepreneurial teamwork assignments. We are aiming to become a centre of excellence for Business and Enterprise. As the Academy is a local community school, community engagement is extremely important.

This is a fantastic opportunity for a successful professional to contribute to the development of this exciting Academy. For the right person, this post will offer you variety in your work, challenge and professional development. We have recently moved into a new building which offers excellent facilities.

How to apply: We are committed to safeguarding the welfare of young people and expect all staff and volunteers to share this commitment. All appointments are subject to CRB checks and excellent references. Application form and further details are available from Emmanuel Umoke by email at: umokeemmanuel@colai.org.uk; or by telephone on: 020 7288 4575 or available for download from the Academy website at www.cityacademyislington.org.uk Deadline for application: Friday 10th February, 1pm.

To appear in the TES under Mathematics on Friday 27th January 2012.
