

Homework reports for parents and carers on Google Classroom

Google Classroom

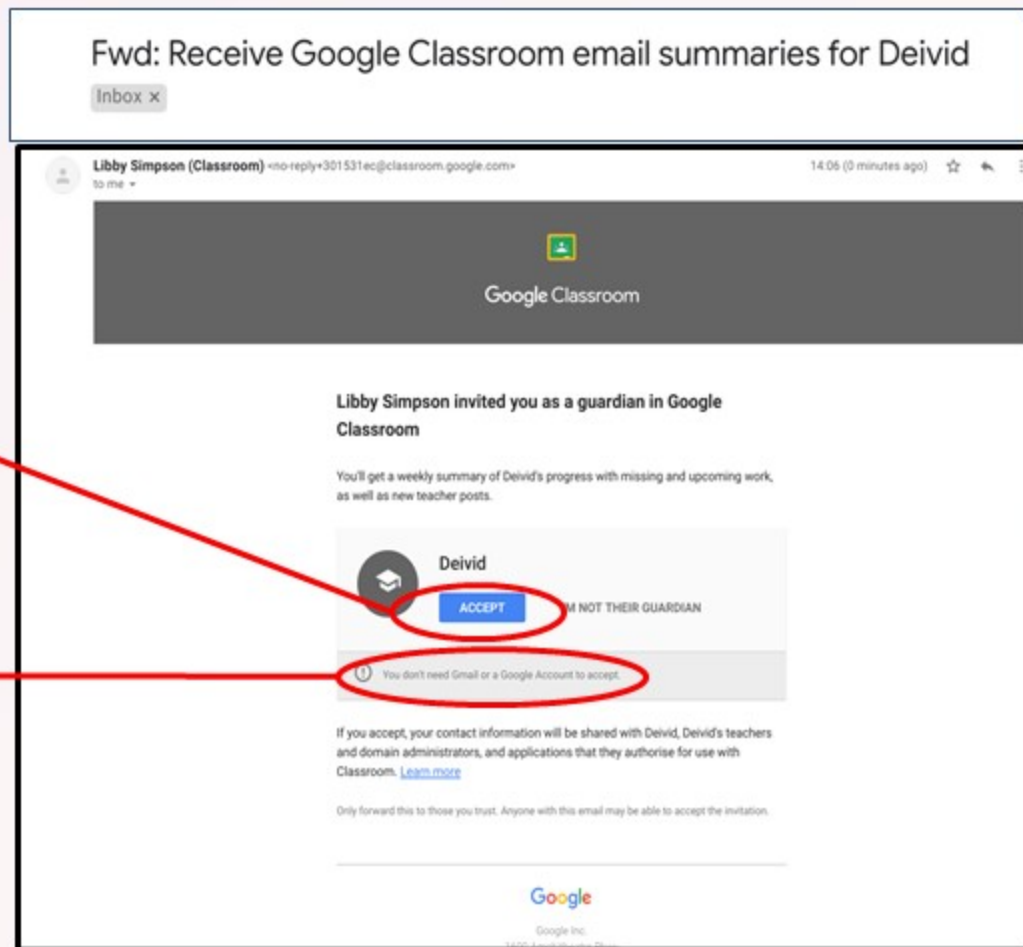

Respect – Responsibility – Integrity

Guardian Email

Guardians will be sent this invitation to their email address. They are required to accept an invitation to be a guardian on Google Classroom.

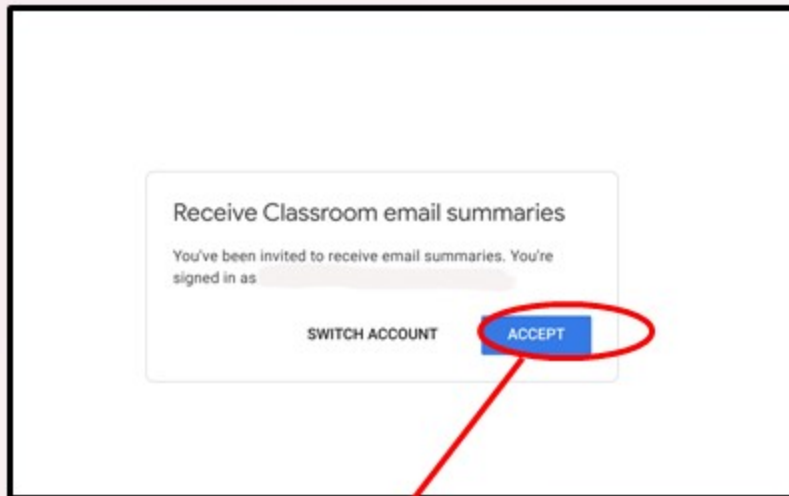

Important: Guardians do not require a Google email or account to receive summaries.

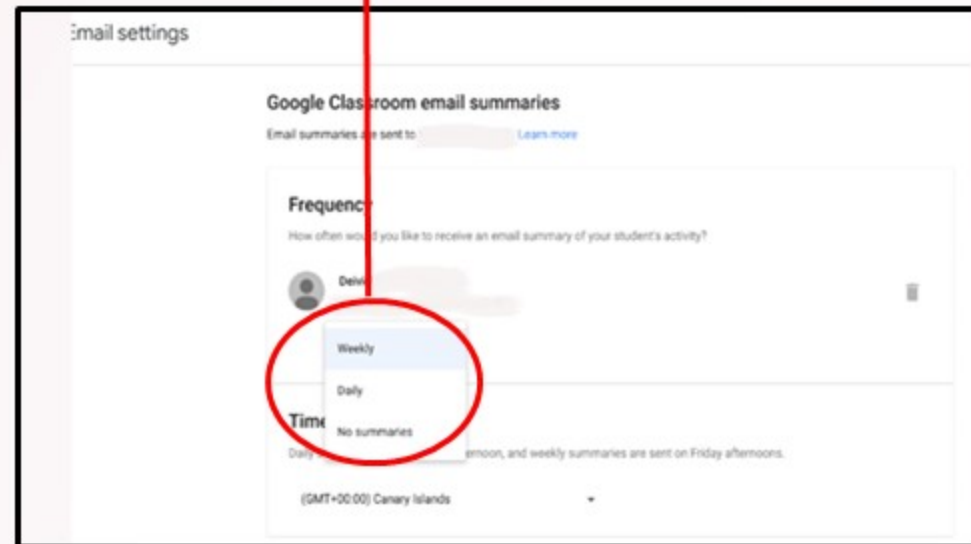

Guardian Confirmation and Email Settings

Following this request confirmation, guardians will be asked to select the frequency which they wish to receive email summaries of homework set for their child: daily, weekly or no summaries.

If you choose daily / weekly, you will be sent a summary of the homework tasks set for your child so you can provide any support with them and check they have been completed.

The student's guardian can then accept this request to receive summaries of their child.

Teacher Dashboard

When a guardian has been invited but has not accepted the invitation, you will see their email and (invited) on the dashboard.

When the guardian accepts the invitation, their email will remain with no further action required.
